On Helping Kids
with Cancer!

THE SUNSHINE KIDS

Dedicated to children with cancer

Join the "who's who" of Omaha's business and real estate community for a unique round of indoor golf.

Designed by Vince Leisey, Prudential Ambassador's president, the nine-hole indoor course covers 32,000 square feet and flows through two floors of the firm's corporate offices in the Bank of the West business park.

The course is constructed of mats and outdoor carpets and incorporates highlights such as a sand shot in the conference room, putting greens that start at the top of a stairway and end in the lobby, a long drive down a hallway, and several architecturally-challenging pitch shots.

Following the distinctive round of golf, guests will be treated to an informal buffet, silent/oral auction and a "Night on the Town" raffle, the proceeds of which will go to The Sunshine Kids. **This year's goal – \$100,000.**

Omaha Kids at the Olympic Swimming Trials

The Sunshine Kids and what's "real about the state" of kids with cancer

The Sunshine Kids Foundation was founded by Rhoda Tomasco in 1982 while serving as a volunteer in the pediatric cancer unit of a hospital in Texas. After seeing the loneliness and depression among children during their hospital stays and painful treatments, Rhoda had a vision to provide these young cancer patients with opportunities to participate in positive group activities promoting self-esteem, personal accomplishment and old fashioned fun! Today, that vision has been realized as thousands of children have reaped the benefits of The Sunshine Kids many national and regional programs and events. Locally our own Children's Hospital has been a participant in Sunshine Kids activities for the past seven years. Funded by personal and corporate contributions, the organization provides all of its activities completely free of charge. With over 40,000 children in hospitals undergoing cancer treatment, efforts such as Prudential Real Estate Affiliates program help make this possible.
